Memorandum No. 2008 - 127

To: Superintendents
Principals

From: Lesley Wangberg 
Director of Assessment

Date: August 29, 2008

Subject: PAWS Student and Home Reports

TIME SENSITIVE INFORMATION

It has come to our attention that the Proficiency Assessments for Wyoming Students Paper Reports for Reading, Writing and Mathematics have a printing error. If you have not sent the PAWS Student Report for Reading, Writing and Mathematics to the student's parents/guardian, please destroy the reports. New reports are being printed and will be delivered to your district office in September. If you have already provided the reports to the parents/guardians, Pearson will provide you with a letter of explanation of the printing error to be sent with the corrected PAWS Student Report.

Please note: The Science reports do not contain the printing error and should not be destroyed.
